IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Deborah L. MacPherson      Examiner: Susan Rayyan  
Number: 10/803,040      Art Unit: 2167  
Filed: March 18, 2004  
Title: **Context Driven Topologies**

Dear Susan Rayyan,

I have adopted your suggestions in the Office Action and our preliminary conversations, including securing the services of a registered patent agent, to clean up the application and provide the following items for examination:

1. Claims 1 to 10 are cancelled and amended to the proper format in the manner required by 35 USC 112 second paragraph. Claims 11 to 30 are submitted for close inspection and suggestions for improvement and allowance.
2. The Abstract is resubmitted in the proper format as instructed in the Office Action by setting forth the Context Driven Topology process in concise form.
3. The specification has been cleaned up for submittal in the proper layout for a utility application per Patent Rule 37 CFR 1.77(b). Minor edits for grammar or clarity, including the intended use and field of use statements, are provided per 37 CFR 1.121 in both marked up and clean versions. If possible, I request the opportunity to submit the text on PAIR using the USPTO software in the near future so the words can be searched instead of only publishing scanned papers. The Drawings and black & white photograph from the Smithsonian Hirshhorn Museum remain the same and are not resubmitted.

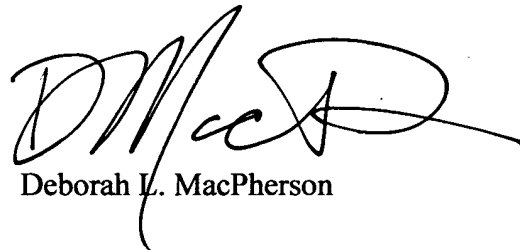

4. A sketch showing tasks in boxes laid out to see the entire process at one time. If you think a neater drawing of the tasks would inform any person skilled in these arts in the manner and process of making and using Context Driven Topologies, the sketch will be redrawn and formally submitted as Figure 11.
5. A Small Entity Assertion of Entitlement per Patent Rule 37 CFR 1.27.

The enclosed is intended to serve as a complete bona fide response to the Office's non-final action before the expiration of the permissible response period including most importantly the appropriate amendment of the claims.

The enclosed items are a sincere effort towards complete consideration of all matters the action raised, intended to be in compliance with your examination requirements. Please do not hesitate to contact me at 703 585 8924 if you believe such contact would advance prosecution of my patent and claims.

Dated: December 30, 2006

Sincerely,

Deborah L. MacPherson
